## **Gnr. 31, bnr. 27 - Svar på spørsmål om krav til søknad**

Regarding your question concerning whether the insertion of two windows will require an application.

I would prefer to see photographs showing the existing exterior of your house, but I can give you a sufficient answer by looking at the drawing you have attached, as well as my understanding of your explanation.

Window 1 can be changed without an application, as long as it is placed in the exact same position, and the size remains unchanged.

However, you will need to apply before you install window 2. This is because doing so will induce an alteration of the exterior. This project will also require that you notify your neighbours in advance.

I hope this answers your question. Do not hesitate to contact Karmøy kommune if you have any further questions.

With regards,

Selina Simpson-Hansen  
saksbehandler
