## Gnr. 31, bnr. 27 - Svar på vedlegg til spørsmål

Thank you for the additional photographs.

My previous answer to your request remains the same:

*“Window 1 can be changed without an application, as long as it is placed in the exact same position, and the size remains unchanged.*

*However, you will need to apply before you install window 2. This is because doing so will induce an alteration of the exterior.”*

Due to the photographs you have provided, I will make a correction to my previous statement:

You do NOT need to notify your neighbours, as I cannot see any neighbours being affected by the placement of the new window.

Med hilsen

Selina Simpson-Hansen  
saksbehandler
