Hi. Your letter 23/2936-1 dated 03/27/2023 upset me very much, because I didn't even think that our septic tank was in such a bad condition and it needed to be changed to another, new cleaning system ...

I understand that probably no one has ever I checked this old septic tank, because it is not shown in the documents,...

Maybe you know and can advise who to contact specifically and who can do all this and replace the septic tank ...

I wrote several letters and attached copies of your letter, with with a request to consider the issue of replacing a septic tank in several organizations of plumbers and now I am waiting for their answer and suggestions on how much it will all cost ...

I was in the administration building of the Karmoy kommune on 04/17/2023 and talked with Kevin Kvilhaug, but I didn't really understand much because he was in a hurry ...

Did I understand correctly that 1 year is given to install a new septic tank? Help please !
